Describe any major repair work or restoration projects that you have completed on this property in the last 5 years and the approximate cost of those major projects.

SECTION 9 · PROPOSED WORK

Based on your contractor's estimate and the priorities listed in the chart in Section 8, please break your project down into no more than six project phases. For example, a project phase might be "Structural Stabilization", "Roof Repair/Replacement", "Window & Door Repair/Replacement", etc. Enter each phase* and its estimated cost** on the line where indicated and in the space below, thoroughly describe the steps, techniques, and materials to be used in the rehabilitation work.

The emphasis of this program is historic preservation, so **original materials should be repaired if possible**. The project phase descriptions below should give **detailed information** about the condition of the original materials and the applicant's plans for working with them. If materials are deteriorated to the point that partial or full replacement is necessary, new materials must identically match the original. All work must comply with the *Secretary of the Interior's Standards for the Rehabilitation of Historic Properties*.

Applicants must include as attachments to this application a detailed contractor's bid/estimate for the proposed project work described in this section as well as images or product pages to demonstrate any proposed new materials that will be used.

* The project phase title you enter here will automatically populate the phase title in Sections 10a, 10b, and 11 and vice-versa. If you change the project phase title in one area of the application, they will all change.

** The estimated cost you enter here will automatically populate the estimated cost column of the budget table in Section 10a and vice versa. If you change the information in the budget table, the estimates listed here will also change.

Project phase 3: _____ Estimated cost: _____

Project phase 4: _____ Estimated cost: _____

Project phase 5: _____ Estimated cost: _____

Project phase 6: _____ Estimated cost: _____

SECTION 10a · PROJECT BUDGET

For the following budget worksheet, list each project phase you identified in Section 9. For each project phase, list its total estimated cost and how you plan to cover those expenses with any combination of grant funds, cash match, or in-kind match. *Be sure that your total match (cash and in-kind together) is equal or greater to the amount of grant you are requesting.*

Grant Request: Grant funds from the state may only be used for direct hard costs related to construction such as purchasing materials, hiring contractors, etc.

Cash Match: Funds from the owner/applicant which can go toward both hard costs (purchasing materials, hiring contractors) and soft costs (architectural designs, structural assessment, permitting, etc.).

In-kind Match: Any labor, materials, or equipment that are donated to the project.

- **In-kind Labor:** Any work donated to the project by the owner or other volunteers (valued at \$25/hr) or donated professional services that can be valued at the appropriate professional rate.
- **In-kind Materials:** Any materials already on hand that are donated to the project. To count materials as in-kind match, documentation (such as a product page from a website) must be provided to demonstrate the value of those donated materials.
- **In-kind Equipment:** Any major equipment already on hand that is donated for use during the project that would otherwise have to have been rented, such as crane, scissor lifts, electric planer, etc. To count equipment as in-kind match, documentation (such as a product rental page from a website) must be provided to demonstrate what the equipment would have cost if it had been rented.

SECTION 10b · IN-KIND DONATION WORKSHEET

If you are proposing in-kind labor, materials, or equipment for your project, please fill out the following worksheet. For each phase, list the dollar value of in-kind labor, materials, and/or equipment you are donating and provide a short description in the box below, such as "100 hours of volunteer labor at \$25/hr and 1 week rental of a scissor lift valued at \$200/day."

SECTION 11 • PROPOSED PROJECT TIMELINE & READINESS TO PROCEED

Please list the estimated start and completion dates for each project phase and indicate whether or not the funds for each phase are currently committed. Grant funds are reimbursement only, meaning applicants must expend costs associated with the project and *then* request reimbursement for eligible costs covered by the grant award. Commitment of funds means that the applicant has the cash on hand (or has an agreement with a lender to acquire the necessary funds) to complete the project and then request reimbursement.

Project phase:	Estimated Start Date:	Estimated Completion Date:	Are funds currently committed?	
1 _____	_____	_____	<input type="checkbox"/> Yes	<input type="checkbox"/> No
2 _____	_____	_____	<input type="checkbox"/> Yes	<input type="checkbox"/> No

SECTION 14 · PUBLIC BENEFIT

The term of the easement will be 5-15 years, depending on the amount of the grant award.

If awarded a grant, will you agree to enter into this easement? Yes No

- C. Is the property regularly or occasionally open to the public? Has the property been included in public farm tours, hosted school groups, or provided other educational opportunities?
